 components? What are the main  
 functions?

- QUESTION** **Answer**  
 What is the main purpose of the  
 system? What are the main  
 components? What are the main  
 functions?

- QUESTION** **Answer**  
 What is the main purpose of the  
 system? What are the main  
 components? What are the main  
 functions?

The main purpose of the system is to provide a secure and reliable way to store and retrieve data. The system is designed to be scalable and flexible, allowing it to grow as the organization's needs change. The system is built using a combination of hardware and software components, and is designed to be easy to use and maintain.

The system is designed to be secure and reliable, with a focus on data protection and availability. The system is built using a combination of hardware and software components, and is designed to be easy to use and maintain. The system is designed to be scalable and flexible, allowing it to grow as the organization's needs change. The system is built using a combination of hardware and software components, and is designed to be easy to use and maintain.
