Romanian Psychologists' College
Bucharest, Str. Stoian Militaru 71, Code 040713

Dear. Dr. Dafinoiu,

I address this letter of intent in response to your announcement concerning EFPA applications. I am applying for the Standing Committee on Traffic Psychology.

For the past 10 years, my main research area has been Traffic and Transportation Psychology. I obtained my PhD in Psychology in 2013 (from the University of Bucharest) and my Habilitation in 2018 (at the West University of Timișoara). Both thesis addressed topics concerning Traffic and Transportation Psychology. Since 2015 I am employed as an Assistant Professor at the West University of Timișoara, Psychology Department. Probably the most substantial evidence of my interest for research in Psychology is the 14 papers published in ISI indexed journals. Out of them, 7 are directly related to Traffic Psychology. In addition, I have managed to win two research grants and one scholarship (awarded through competition), all of them in the Traffic Psychology research area.

I hope that you will find my motivation and qualification appropriate for a position in the Standing Committee on Traffic Psychology. I look forward to your response.

Sincerely,

Paul Sârbescu
